The attention is in the detail.

Baxter Boots
HANDCRAFTED SINCE 1850

Baxter Boots – The boots Australia loves.

The tradition hasn't changed much, nor has the tough quality that Australian's have come to expect from a handcrafted icon - Baxter Boots.

The Baxter boot making dynasty began when Henry Baxter bought one of the country's oldest boot manufacturing companies founded in Goulburn in 1850. Henry loved the Australian bush, was a prize winning shooter and could ride a horse like the devil.

Just like Henry, Marshall Baxter, Henry's great grandson and current family business owner, insists on Baxter boots continuing to be made from premium grade leather to ensure each foot is gloved in supple comfort and the best Australian quality.

Renowned throughout the land, Baxter Western Boots continue to be put through the worst and harshest conditions Australia has to throw at them. From snow to bone dry heat these boots are the choice of many a cattle farmer on the land or man who wants to look his best at his local.

The distressed leather gives these Baxter Boots a unique feel and look and because they're Baxter Boots, you know they're made to last.
