Work Boots

The attention is in the detail.

**Baxter Boots**  
HANDCRAFTED SINCE 1850

## Baxter Boots – The boots Australia loves.

The tradition hasn't changed much, nor has the tough quality that Australian's have come to expect from a handcrafted icon - Baxter Boots.

The Baxter boot making dynasty began when Henry Baxter bought one of the country's oldest boot manufacturing companies founded in Goulburn in 1850. Henry loved the Australian bush, was a prize winning shooter and could ride a horse like the devil.

Just like Henry, Marshall Baxter, Henry's great grandson and current family business owner, insists on Baxter boots continuing to be made from premium grade leather to ensure each foot is gloved in supple comfort and the best Australian quality.

Baxter Boots legendary hand-made toughness has extended into the work boots and is taking the market by storm. Designed with over 150 years of experience behind it, Baxter Work Boots come in a range and style that will fulfil your every working need.

These boots not only look and fit great, they come in oil resistant, steel cap, slip-on or lace up and are all made from tough, home grown Australian leather.

## Spitfire
